Difficulties Encountered

- Apathy from potential Case Studies
- Lack of UK and EU statistics
- Unwillingness of Public Officers to become involved
- Not able to set up UK work group
- Excessive amount of time needed – compare with other partners
- No obvious UK training structure in this field

Good things Encountered

- Positive responses from teachers
- Statistics are there but not in anticipated format e.g. UK uses NEET
- UK systems really do not allow 'official drop outs'
- Nos. in Derbyshire leaving without qualifications are reducing

Good Things Encountered

- Lots of National Policies in place to try to improve situation e.g. extension of school leaving age
- Clear, nationally set, areas of responsibilities
- Financial support whilst training / studying
- Contacts made during activities
- Continuing to learn new information
